OITC GROUP

Your partner in success & professionalism

A Commitment to Excellence

Since 1978

OVERVIEW

OITC GROUP is an enterprise with global vision, diverse interests and Versatile capabilities

For over 30 years of its operations, the group has been providing world class value-added services to its clients.

The spectrum of its activities include EPC, Supply, Construction & Service contracts in the following sectors.

By the virtue of its intense planning and careful implementation of diversification strategy, the group has capitalized in Qatar's ongoing perpetual growth and promising of the market.

OITC has developed number of strong partnerships and sound working relationships with global players who share OITC'S ideas.

The group boasts of its qualified, experienced and reliable team of personnel capable of fulfilling every client's commercial, engineering and administrative objectives.

Under the visionary leadership of the Board of Directors, OITC Group always stands among the pioneers within the business community of the state of Qatar.

It's success lies in its commitment to quality, corporate honesty, transparency and consistent delivery of reliable services at the highest level of techno commercial proficiency.

MISSION

Active participation in the developmental and infrastructural programmes of the Middle East region in various sectors such as Oil & Gas, Petrochemicals, Energy, Civil, Real Estate and Investments.

The Group is committed to provide reliable and quality solutions to its clients and associates such that it creates maximum value to the stakeholders.

Ready Mix Concrete

Concrete Batching Plants, Concrete Pumps & Transit Mixers

- LIEBHERR BETOMIX Batching Plant with capacity of 90 m³ per hour
- LIEBHERR BETOMIX Batching Plant with capacity of 120 m³ per hour
- LIEBHERR Mobil mix with capacity of 102 m³ per hour Mob
- Lintec with capacity of 120 m³ per hour Mob CC3000 @ Al Ain
- Nutec with capacity of 120 m³ per hour Mob CC3000 @ Ras Al Khaimah
- SIMEM with capacity of 120 m³ per hour Mob CC3000 @ Ras Al Khaimah
- Truck Mounted Pump
- Our truck mounted Pumps ranges from 21m, 24m, 28m 36m up to 42m. In addition to that we have a complete set of high rise building equipment to handle from the extensions pipe up to the concrete distributors
- Concrete Transit Truck Mixers
- We have a large fleet of transit mixers (more than 80 with 9 m³ , 10 m³ , & 12 m³ capacity, reaching the International Standard in transporting.
- Temperature Control
- We have a refrigerating system serving our plants around Ras Al Khaimah. Our Ice Plant Capacity is up to 80 Ton per day.
- Wet Concrete Treatment System
- We have a strong commitment to environment issue, we are placing our Concrete Recycling Plant side by side with our Batching Plant to avoid the wastage and pollutions.

Portable and Waste Water Treatment Plants

In the various field of water work, where OPEE has continuously gained experience, major solutions have been successfully implemented for Potable Water and Waste Water Plants as well as for Water Supply projects.

OPEE, together with its distinguished partners and suppliers, offers engineering, design, and manufacturing and installation services to cover the full range of electromechanical installations for Water Works.

The basic properties of the electromechanical installation offered by OPEE are, to optimize the usage of the water resources, to increase economical and technical productivity, to set quality as a standard, to improved the working quality as a standard, to improve the working conditions and thereby increase the productivity and profitability of the utilities.

OPEE, beside Turn Key solutions for Public Utilities, as offers the Private Sector electromechanical equipments and process machinery such as field instrumentation, pumps, valves, mixers, scrapers, dosing, chlorination, filtration systems and the alike.

Automation

The water works are undergoing continuous growth sector with new opportunities. Having devoted itself to assisting this evolving trend, OPEE is acting as a System Integration” in the field of plant and utility automation system.

Along with its experienced team and the state of the art technology, OPEE is able to undertake all scales of various automation systems from the lowest to the highest level. OPEE, with the support and trust it has attained, present optimal solutions to the automation needs of the water installation and utilities.

Services and solutions provided by OPEE for Utility and Plants Automation are based on engineering, designing and integrating different automation levels and control equipments from field up to control room such as Instrumentation, Drives, Motor Control Center (MCCs), Programmable controllers and Front End Computers integration to SCADA (Supervisory Control and Data Acquisition) software implementation and Management Information Systems.

SCADA

OPEE offers to its clients the advantages of the integrated SCADA Control System that are modular, flexible, scalable, functional and structurally completed.

OPEE is capable of installing Turn Key SCADA systems ranging from the fields sensory interface level up to central control rooms. These systems are able to compromise all areas of production, distribution, maintenance accounting and administration parts of any utility. OPEE uses the high-end technology based on intelligent SCADA packages of its worldwide solution partners. The remote terminal units (RTUs) and wide area network communication system (WAN) are the backbones of the SCADA and Telemetry System offered by OPEE.

Activities spectrum of OPEE covers Supply monitoring and control, Automatic Meter Reading applications, as well as remote control of Portable water and sewerage pumping stations. In these applications, OPEE, where the reliability counts first, is using a world class technology both in hardware and software.

Electrical Works

In all of the projects handled by OPEE, electrical work was always one of the fundamental structures for the systems delivered, and therefore, OPEE is keen to use clean and trouble free electrical energy in all of its installations.

Electrical work delivered by OPEE covers the design, basic engineering, manufacturing of Motor Control Centers (MCCs) and control cubicles as well as the complete installation of High Voltage, Medium Voltage and Low Voltage Systems.

To ensure the quality and the optimization of the electrical work installed, OPEE does undertake all the needs stages in-house. Reciprocally, design and manufacturing work as well as the procurements of the electrical components and equipments goes through and intensive quality check.

OPEE has the capability to provide Engineering Services, Technical Consulting and complete study works for Electrical Installation needs by any utility and plant.

OUR JV PARTNERS & ASSOCIATES

KANOO COMMERCIAL GROUP (PARTNER IN OBAIKAN)

Kanoo Machinery provides its services to all sectors of the industry, offering a wide range of equipment and consumables from the world's leading manufacturers of welding, grinding, materials handling and maintenance products. In addition, Kanoo Machinery offers a full after-sales service through a network of workshops, parts and mobile service facilities throughout the Gulf and Arabian Peninsula.

AL NUAIMI GROUP (PARTNER IN AL OBAIDLY AL NUAIMI CONST. GROUP)

Headquartered in Ras Al Khaimah, a leader in the field of Civil works especially piling, road works, buildings & ready mix concrete plants.

THERMO L.L.C (PARTNER IN OITC THERMO)

Headquartered in Dubai, A leader in the field of Mechanical, Electrical & Plumbing engineering and contracting with an experience of 28 years in the region offering single or multi service engineering contractor for both small and large projects.

MT HOJGAARD (PARTNER IN MT HOJGAARD Al Obaidly W.L.L)

Headquartered in Denmark, MT Højgaard is an international contractor with more than 5,000 staff, of whom about 4,000 work in core areas: civil engineering, construction and refurbishment.

JV PARTNERS & ASSOCIATES

INTEGRAL SERVICES COMPANY (PARTNER IN AL OBAIDLY ISCO ENGG & CONST)

Integral Services Company, Kuwait is one of the largest companies from Kuwait in Heavy Mechanical Engg, fabrication , maintenance, shutdown , EPC contracts

FLORATECH L.L.C (PARTNER IN GTC)

Florotech is a limited liability company, which is specialized in: Landscaping projects, Supply of indoors outdoors plants, Regular maintenance, Agricultural projects, Supply of landscaping related items, (Outdoor Furniture, Irrigation, Material, etc)

KAMAZ INCORPORATED (PARTNER IN AL OBAIDLY MOTORS)

KAMAZ INC. is the manufacturer of KAMAZ Trucks and Construction Equipment in Kuwait & Jordan.

SAUDI CABLE CO. (PARTNER IN GLOBAL ELECTRIC CO.)

Saudi Cable Co KSA is the largest cable manufacturer in Middle East region and the first producer of XLPE, Copper Rod, Metallic & Optical Fiber Cable

PIOMAK OTOMASYON (PARTNER IN AL OBAIDLY PIOMAK ENGG & ENTERPRISES)

Piomak is a leader in Turkey in electro-mechanical for potable & waste , water treatment works, PLC/ SCADA & automation & control systems

BUSINESS PROSPECTS

Taking advantage of the economic boom of the region, the group appreciates associations as the GCC countries boast of:

Stable Governments

Low country risk ratings (good credit ratings)

Economies with high growth rates in terms of GDP

Massive Oil & Gas reserves with highest ever oil prices

Largest number of infrastructural projects

Long term contracts

We believe that Partnership is a key element of risk diversification & gaining access to individual partner's strengths.
